

## **Avtex Limited | L186DRS**

In spite of a sluggish economy in Britain, caravanning and motorhome touring is booming. There are over 500,000 caravans, 164,000 motorhomes, and Avtex Limited is able to fulfill all their electronic entertainment needs. Avtex operate what they call the 'trilogy mantra'. Robustness, Viewer Experience and Aesthetic.

Avtex Limited has been the trusted name for mobile specific TVs for over 25 years. Their expert team designs their TVs specifically with the mobile user in mind. Whether for a caravan, motorhome, or boat, Avtex provides high quality componentry, outstanding viewing standards and features that are cutting edge in this niche industry and will not compromise on a sleek modern look.

Two shining examples of this are the **L186DRS** and the L216DRS TVs. The principle difference in these two models is that the L186 has an 18.5" screen, while the L216 has a 21.5" screen. Both TV's come with DVBT2 digital tuners, built-in HD for terrestrial channels, and a built-in DVD/CD player. The DVB-T2 and the DVB-S2 tuners all you to enjoy HD TV programmes received through your aerial or Satellite dish without the need of an additional decoder box. Both TVs have a timer record from the electronic programme guide; pause and playback live TV to USB. Both models have a USB port allowing you to pause/record live TV. You can record from both the Terrestrial (Freeview) Tuner and the Satellite Tuner.

Another great feature of the TVs from Avtex is their AQT (Avtex Quick Tuning) system. This innovation allows you fast and easy channel tuning, by simply holding down the AQT button on the remote control for a few seconds in either digital or analogue TV mode; the TV will automatically tune itself in. additionally, with sets that have MHEG5 the added advantage is that all the channels are saved in the correct order. And all TVs in the Avtex Limited line up have MHEG5 already built in. Avtex Limited has pulled all stops in offering these two TV models to the mobile leisure industry, as both have an extremely slim design. Although they come with a detachable tabletop stand, the TVs are also VESA wall mountable. Supplying power to the TV is simple. Both models come with a 12v lead that plugs into a cigar lighter socket.

Avtex relies on more than 25 years of experience to provide state-of-the-art TV's to the mobile leisure industry.
